WOODS

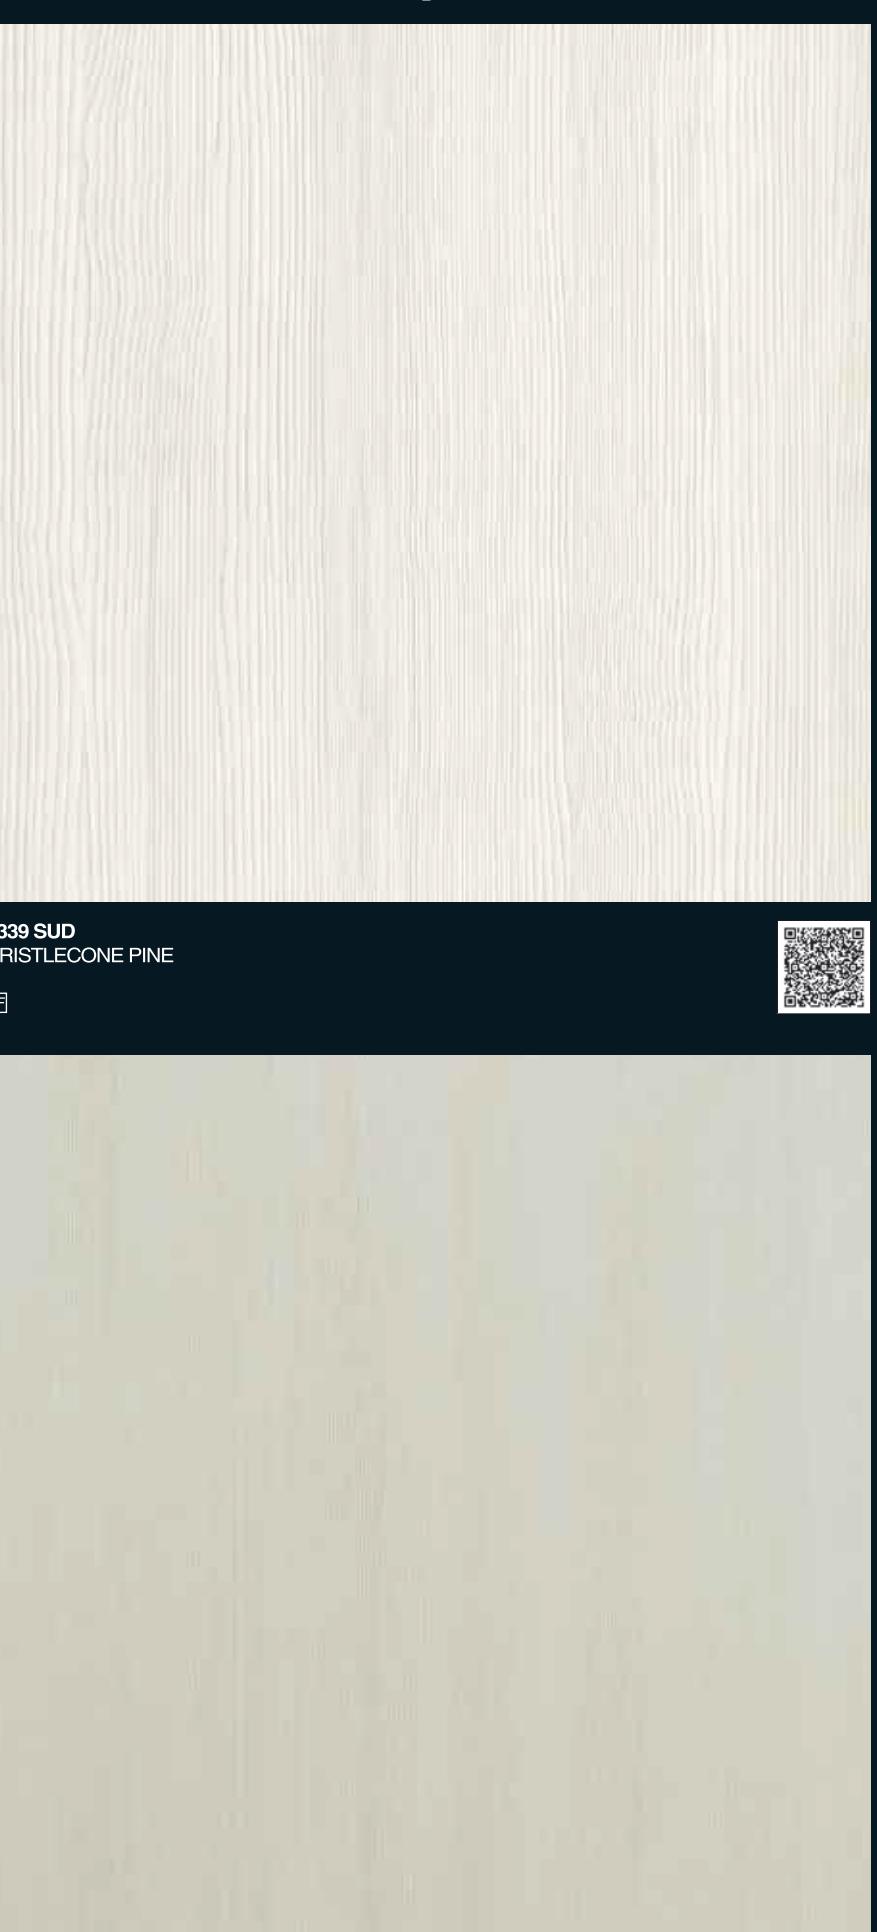

The beauty of well defined wood grains will never go out of style. From quiet minimalism to bold masculinity, the secret of our ultra-realistic wood laminates lies in the precise colour tones and three-dimensional surface designs. Backed by our experience and knowledge in wood veneers, we are able to achieve the unique veneer look that give our laminates their distinct wood lines, swirls, knots and cathedrals.

PATTERNS

With a wide range of patterns and textures, our laminates have been designed for every possibility. This ranges from naturally occurring stones like marble and granite to man-made materials like textiles and concrete. All the patterns on Greenlam laminates are the result of the layer of decor paper that is infused on the laminate. With our advanced printing technology, we are able to mimic the finest details of the materials we replicate, resulting in ultra-realistic surfaces that are almost indistinguishable from the original.

OUR COMMITMENT TO QUALITY ASSURANCE

SAFE AND HEALTHY LIVING ALONGSIDE GREENLAM PRODUCTS

GREENGUARD® Certification

GREENGUARD CERTIFIED
Greenlam Laminates are classified under the Low Emitting Product category when measured for potentially harmful emissions. This is an assurance that our products are ideal for use in interior environments where air quality is vitally important.

REFENGUARD Gold Certification

This certification, with a stricter criteria, means that Greenlam products are suitable for use in environments where children spend significant periods of time, including schools, daycares and healthcare facilities.

Greenla
rect cont

Greenlam Laminates are certified by prestigious American body, NSF International, making them the safest laminates for human health. Our surfaces can be used in situations where they will have direct contact with food. "Our surfaces have also been tested in accordance with EC directive 1935 with regards to food safety. Our products were proved fully compliant through testing to the demanding EU Food Commission Regulation 10/2011 with successful testing to BSEN 1186-1:2002, BSEN 1186-3:2002 & BSEN 1186-14:2002".

The FSC® certification is considered the "gold standard" designation for wood harvested from forests that are responsibly managed, socially beneficial, environmentally conscious and economically viable. If a product, like a piece of tropical hardwood furniture, is labeled as "FSC® Certified", it means that the wood used in the piece and manufacturer that made it met the requirements of the Forest Stewardship Council®.

Greenlam Laminates have been certified by Griha Council, and have been included in the GRIHA Product Catalogue under the following categories: GRIHA v.3 criterion:17; GRIHA v.2015 criterion: 21 & SVAGRIHA criterion:12, conforming that the product can be used in GRIHA & SVAGRIHA registered projects to meet the following criteria:

Disclaimer:
As per the test report SARS Cov-2 virus gets more than 99% retarded after 45 mins of the contact"
As per the test report virus gets 99.99% retarded in 24 hours of contact"
